

Rail Fence

Hands-Off Cow Flow Management

The Artex rail fence system is a modular system that offers producers a cost-effective, easy-to-install solution. Fully customizable, you can build the system as long or as short as you like with easy-to-connect sections.

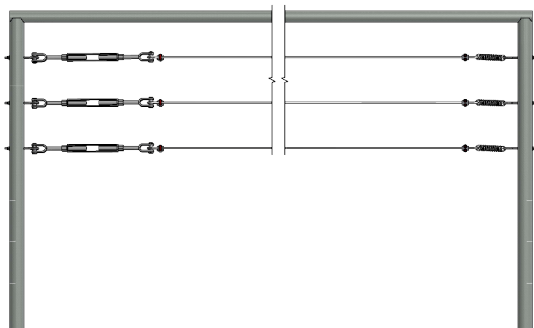

Designed for long-lasting use, Artex fence panels are cemented into place without the need for on-site welding. Speak with us today for more information on a customized solution

Rail Fence Features

- » Customized solution for each facility
- » Easy Installation with no on-site welding
- » Ideal for holding areas, transfer lanes, and perimeter fencing
- » Long-lasting solution with minimal maintenance requirements

"It's a prefab system, that just gets set down before concrete. It minimizes our installation time."

Aaron Buchanan | Project Manager | Sioux Dairy Equipment | Iowa, USA

Cable Fence

Hands-Off Cow Flow Management

This build-your-own solution is our most customizable fencing option. We provide you with individual posts and anchor panels that allow you to create a fencing solution that fits your exact needs.

Each cable fence solution is unique, and we work with you to develop a layout that makes sense. Speak with our team today to discuss layout options and 3D layouts.
